

15.6" FUSION II

ELEGANT AND STYLISH GAMING LAPTOP

Introducing the 15.6" Fusion, combining the elegance of a professional notebook with the power of a gaming laptop. Powered by 8th Gen Intel® Core™ processors and NVIDIA's GeForce Max-Q design - providing a thin, fast and quiet gaming experience.

INTEL® CORE™ PROCESSORS

8TH GENERATION PERFORMANCE

Experience six cores of power at your fingertips with Intel's 8th Generation i7 processor, allowing you to immerse yourself in flawless gaming and 4K entertainment.

Unprecedented power and responsiveness, paired with easy, built-in security, means you can work, play and create as quickly and seamlessly as your heart desires.

NVIDIA® GEFORCE® MAX-Q

THIN, FOR THE WIN

Max-Q is an innovative approach to crafting the world's thinnest, fastest, quietest gaming laptops. It hits the sweet spot of ultimate GeForce GTX gaming and impossibly sleek design. Finally, a gaming laptop you can put on your lap.

The 15.6" Fusion is available to configure with a NVIDIA GeForce GTX 1060 - delivering brilliant performance that opens the door to virtual reality and beyond.

HIGH PERFORMANCE STORAGE

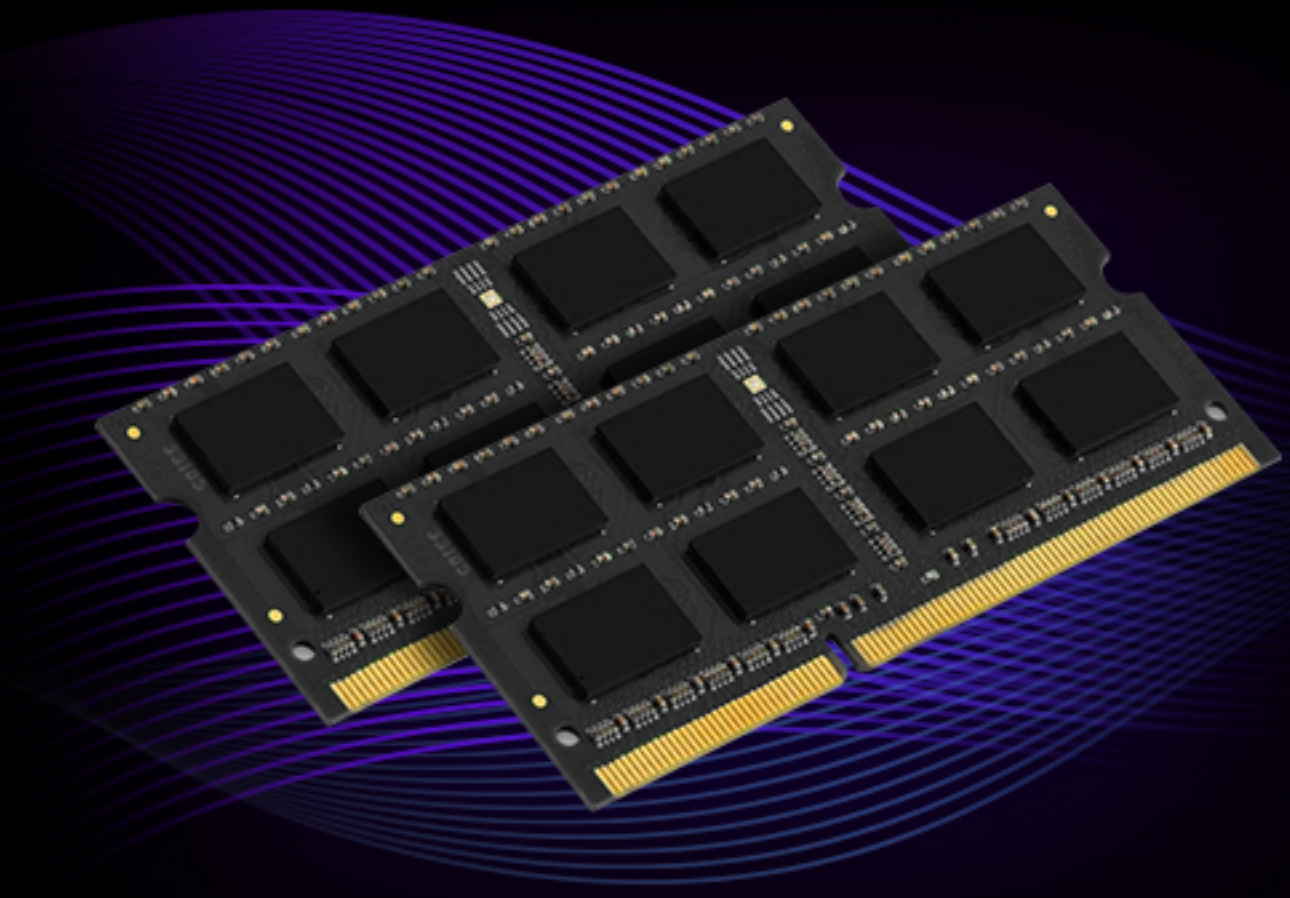

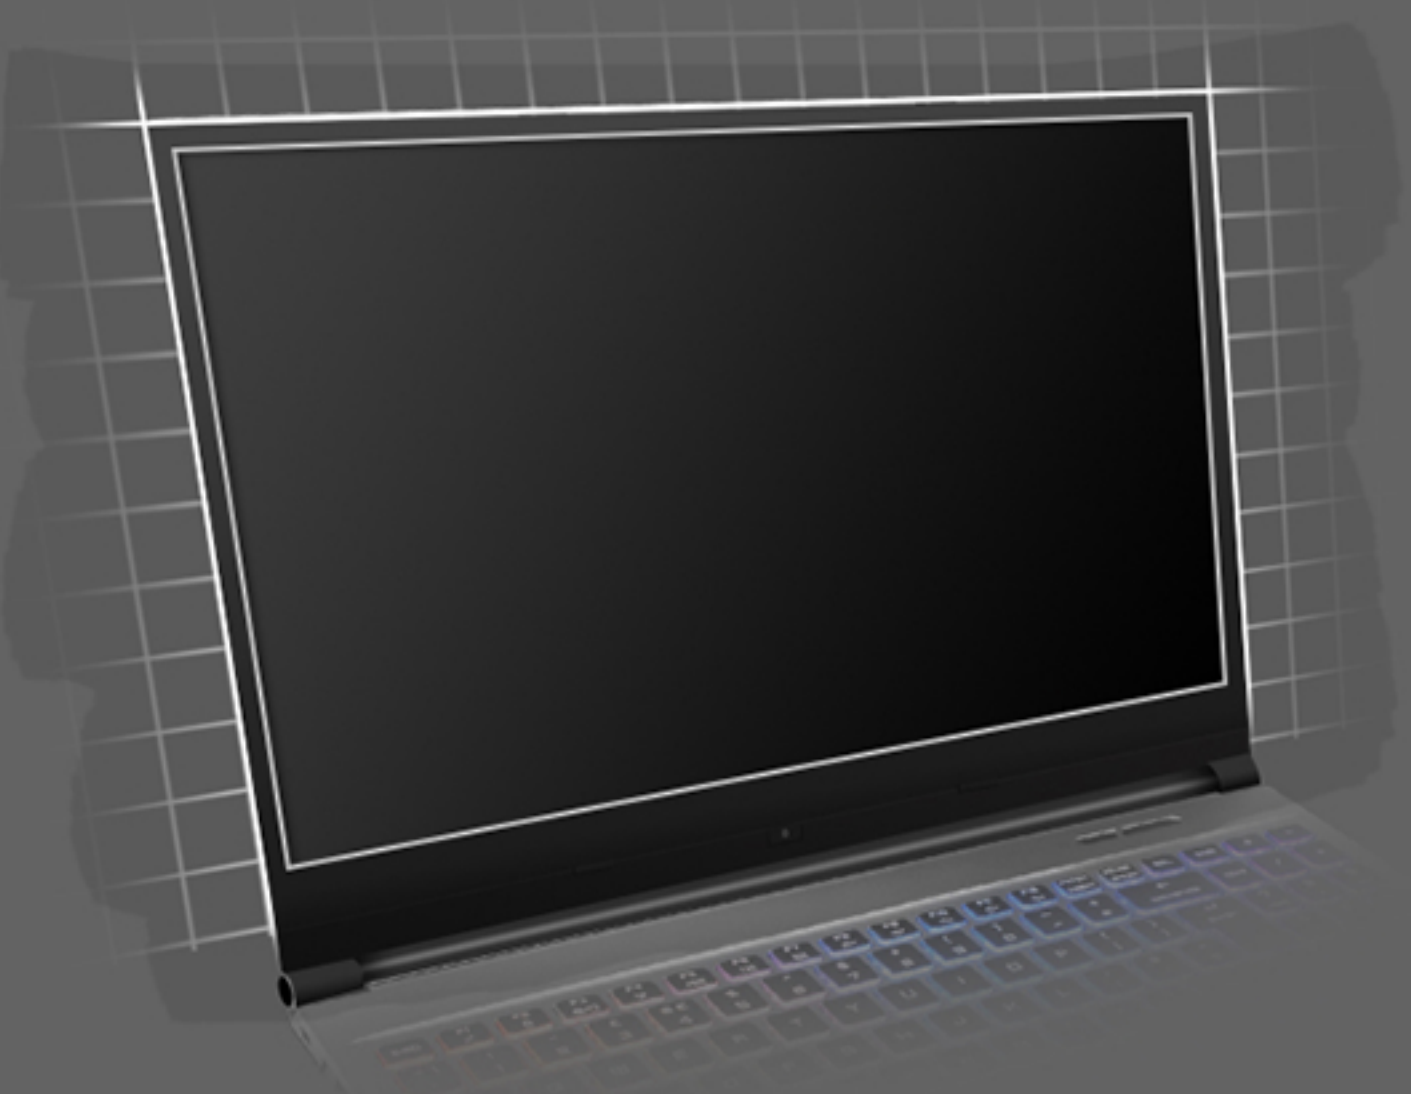

REDUCE YOUR LOADING TIMES

With the wide range of storage options, you can be confident you can install your entire gaming library and take it along with you. Reach unprecedented speeds with M.2 SSD options allowing up to 3,500MB/s transfer speeds.

SEE THE BIGGER PICTURE

AN IMMERSIVE AND INNOVATIVE DESIGN

The Fusion allows you to see the bigger picture with narrow bezels measuring at just 7mm wide! The slim borders offer a revolutionary viewing experience, providing a remarkable pixel to border ratio to ensure you are focused on your content.

CONFIGURABLE RAM

Customise the memory of the Fusion to reflect your computing needs supporting up to 32GB with a choice between 2133MHz, 2400MHz, and 2666MHz speeds.

Featuring DDR4 technology - delivering higher performance, higher DIMM capacities and improved data integrity whilst keeping low power consumption.

FULL RGB CONTROL

WITH PER-KEY RGB LIGHTING

Take full control of your lighting with the control centre software. With a list of options to choose from, you can customise the keyboard to your heart's desire. You can change each key individually or have a whole spectrum of colours in several effects. With the option to save profiles, you can save each setup to suit your mood and environment.
